Magnetic Island

Magnetic Island is a big Island with many unique attractions, enormous wildlife diversity and a location only 8km off Townsville - midway between Cairns and Airlie Beach.

"Maggie" is totally different to other Great Barrier Reef islands in character and ecology. It is an island that many welltravelled Internationals rate as their all time favourite. However, first impressions are not always favourable and self-guided transport can result in disappointment. It is a place where you can study every guidebook available, stay for weeks and still miss some really good experiences. There is no doubt the best way to experience Magnetic Island is with a local professional guide, comfortable air conditioned transport and a genuine small group.

TESTIMONIALS

"I love Magnetic Island and the best way to do Magnetic Island is with Tropicana. My family and I have done it FOUR times.

It is an experience you "Tropicana was honestly the best tour experience that I can remember. Completely relaxed"

Greg Floyd

International Product - Tourism Queensland

"Magical. Definitely the best ay to experience the island and all it has to offer."
Carey Davey.

Townsville

From its early beginnings Townsville has capitalised on its low level terrain and relatively low tropical rainfall to provide an efficient access route and service centre for North Queensland. It is widely regarded as the capital of North Queensland.

The city and its precincts are continually evolving. It is easy to visit Townsville and leave without gaining an understanding of the culture, lifestyle, heritage and natural beauty.

There is so much more to Townsville than is initially evident and the best way to really experience Townsville is in a fun, tropical Tropicana vehicle with a well trained and knowledgeable guide.
